

Senator Jeff Sessions
Questions for the Record
The Honorable Jim Kolbe

1. If S. 744 were to become law, do you believe that the Department of Homeland Security would deport those who enter the country illegally or overstay their visas after the bill's enactment?

2. If S. 744 were to become law, how many total new immigrants, including those currently here illegally who would be granted some form of legal status and those who would be admitted to the country under all categories of chain migration, would be added to the United States over a ten-year period following the date of enactment and over a fifteen-year period following the date of enactment?

These questions are beyond the scope of my testimony to the committee, so I would refer you to my colleagues on the panel who might provide answers to these questions.

Sincerely,

Jim Kolbe

Former Member of Congress
