

To Chairman Grassley and Ranking member Durbin,

Why did my only child Kirby die at age 28? He was looking forward to his daughter being born in January. Yet in October 2021 fentanyl took him away. My life is so empty without him. I make sure I tell him all about his beautiful daughter is doing. I see so much of him in her. There is a pain in my heart that nothing will ever cure. I keep going because of my granddaughter. There is nothing else that matters. I am retired now so I'm available to visit anytime with her. But I hate the fact that everything that happens in her life, he isn't here physically. But he has been here spiritually. He makes himself known. I have been in some really dark places lately because of Fentanyl. It ruins so many lives. Please get rid of it before it ruins any more.

Kathy Core for Kirby Core forever 28
