

Dear Chairman Grassley and Ranking Member Durban

My name is Perri Torres. I was the mother to Paul Melrose forever35. Unfortunately, on 01/22/22, my son lost his life to fentanyl poisoning. My life was forever changed on that day. All my hopes and dreams of Paul's future died too. Paul was my oldest son and the loss has been unbearable. I have had a terrible time dealing with my loss. I would not wish this pain on anyone else. Never!!! I am asking you to please please please pass the Halt Fentanyl Act without any amendments. This bill urgently needs to pass without any more holdups. Each day that this bill goes unpassed, we lose so many more of our children and family members. Paul was so very loved and is missed everyday. I pray this bill will be passed and signed quickly so that hopefully it will save lives and save families from the devastation millions of families have had to endure already. In loving memory of Paul Melrose, forever35. Thank you so very much,
Sincerely, Perri Torres
