My beautiful son is pictured on your DEA building Wall memorial.

the last place he want to be. On chip, glued to a marble wall. You cannot imagine the pain I suffer from his murder. You can't, there's nothing more painful than losing a child. But senseless death.of thousands and nothing is ending the losses. Every day, every minute an innocent life is lost to illicit Fentanyl poisoning.

My son was my everything. Nothing can bring him back. Tommy has 2 daughters without a father. He was sick with appendix rupture in Hollywood Presbyterian Hospital. They released him too soon, no.pain medication. He got sepsis..was in agonizing pain..the street gave him 45ngs in 1 dose.. DEAD

Less than 1 minute he was helpless. Not able to know he was dieing

He was brain paralyzed by this drug. He didn't know to breathe. He died..alone on the floor. They found my son after I called California from New Jersey on a welfare check. I'm on his police report 3,000 miles awzy!!!

Here he is. TAKE A LOOK! MY SON DIED BECAUSE FENTANYL POISONED HIM
