DAG call - on w/ DOTUS + want to
conference w/ us

P - County is up in air over the corruption

Scott Perry (PA) + Senator of

PA - Guy was nice - some of the money
calling

205K votes - more than my law
votes - PD

- flooded the market w/ ballots

- 600K votes added

- 570K - for Biden

- few for me + lots of dead

0332 - flooded the market - all at
- multiple states also

Jim Jordan: fighter - win like
3rd world country.

Detroit - look at districts in MI

- was near 40 but not
Wayne City (over)

- Call dropped ... ~ 3 minutes

- We have thousands of people who went in
to vote + were told you already
voted by absentee ballot

- People are angry - blaming DOS+ for inaction

- Statistically - election night it was
a done deal

- Somehow, overnight
the outcome changed
for all these ballots
showed up

- AZ, GA, PA ...

People won't have confidence in the
GA Senate race

GA, NV, AZ, MI - all corrupted
elections

People are complaining to him constantly

Thousands of people called their USADs + FSE

DOJ failing to respond to legitimate
complaints / reports of crimes

PA - 5M votes in the state

(possibly true?) - but 5.25M votes - clearly fraud

GA - tape that shows fraud, ^{election} ^{center} ^{uses}

- Kelly Freeman - Huckabee - closed

the facility + the case deal

w/ hidden ballots, under table...

- networks magnified the tape +

saw them using the tapes

repeatedly

"You guys may not be following the intended
the way I do"

Demint - then he "pull watches out

Don't even look at the alleged crimes

why - don't need to, it's obvious

FBI will always say nothing there

- leaders there oppose me, SAs support me

(11/10) - that whole thing, messy...
- talked to Mr. Galt here
- also upset

- I made some bad decisions a leadership
there, but it was being under an
FBI illegal investigation - special thro.
stated never have been covered
- You figure out what to do
w/ Biden - people will
criticize the DOJ if they not
investigated for vent.

- GA Leg. is on our side - they want to try
a case but the Gov won't let them

- Statistically responsible for me to lose
- Biden's had me at 100% on
election night - dropped to
32% in 4 or 5 hours - have to work

- DAS - will look at whether have ^{more} ballot
in PA than registered voters - should
be able to check on that quickly
but understood that no DOJ
can't + want snap it's fingers
+ change the outcome of the
election, doesn't work that way
- P: "Don't expect you to do it"

now, just say that the election was
was corrupt + leave the rest to me and
the R. Congressmen."

- (NDD) - Sir, we have done dozens
of mostly, hundreds of interviews
major allegations are not supported
by evid. developed.

- GA/PA/MI/NU.

- We are doing our job. Much of
the info you're getting is false

- g MI - report says 68% error
rate - but reality is it was .0063%
error rate - less than 1 in 15K.

- OK fine - but what about the
others?

- PA Truck Drivers - we interviewed on
both ends - no ballots or
couldn't even ID the envelope

- OK, what if didn't want to
test one - what about the
others?

- GA - looked at the tape, interviewed the Ws,
no suitcase (OK - but they looked like they)
cutters left, no multiple scanning of ballots

- Double voting, dead people, Indians getting paid. Lots of fraud.

- AZ - 2 of 10 of 9K - clear was bad
then not.

- Judge keep saying - where is the DAS?
Why are they not filing in this case?

- DAS/USD - he we are not
in a position based on the
evidence - we can only act on
the actual evidence developed

- Told him flat out that much of it
what he is getting is false, it's
just not supported by the evidence
- we look at allegations but they don't pan out

- D - this is election turning fraud

"We have an obligation to tell
people that this was an illegal,
corrupt election."

- People need me Jeff Clarke is great, I should put
him

- People want me to replace DAS leadership in

RD - No, but want chief to Dept position
- you should have the leadership you want

- You, Dick, should go to Fulton City + do a signature verification and you'll see how illegal it is. You'll find tens of thousands.
- More votes than voters.
- I told him in WI they were comparing the 2020 votes cast to 2016 registration #'s - not a valid comparison
- "Nobody trusts the FBI" - need other to corroborate
- "I'd like to request" - Fulton City, GA
 - check signatures
 - spirit years (miss - not this year)
 - DAS responds: we will take into account
- These people who saying that the election isn't corrupt are corrupt
- Not much time left
- Asked for cell # - provided (he had it anyway) - may have elected officials w/ relevant info call

- Sen. Johnson has done great job
getting to bottom of things
- and that done in public,
unlike DOJ investigation

NV - forensic accounting shows we are
by 20K votes

Mark Warner - NC SC Justice - vetted, shaken

"Ballot drops" delayed the election
